Low-cost medical kits include stethoscope, blood pressure cuff, accessories and attachments...

KNIGHT EDUCATIONAL PRODUCTS EXPANDS MEDICAL PRODUCT OFFERING WITH AFFORDABLE PARAMEDIC AND NURSES KITS

DALLAS, TX (August 30, 2007) – Knight Educational Products, a global manufacturer of medical and educational training equipment, has expanded its medical product offering to include an EMT/Paramedic kit and a nurses kit for healthcare and educational professionals. The CM3212-50 EMT/Paramedic kits are specifically designed for medical first responders, paramedics, and students studying emergency medicine. Featuring an easy access, fold-open carrying case with a heavy-duty nylon case for rugged performance, the EMT/Paramedic kits include a single head stethoscope, neurological hammer, a chrome-plated, palm aneroid sphygmomanometer with five complete interchangeable cuffs and blades.

Designated the CM-2000, the deluxe nurses kit features a color-matched Sprague-Rappaport stethoscope with accessories that include an aneroid sphygmomanometer(BP Cuff) with a non-stop pin manometer gauge, nylon cuff, latex inflation system, scissors, nametag, measuring tape, and pen light that fits into a convenient carrying case.

“Our new nurses and paramedic kits provide our medical and educational professional customers with high-quality medical kits at a very affordable price,” said David Luna, Vice President of Sales and Marketing for Knight Educational Products. “The kits demonstrate our commitment to providing medical professionals and students with durable, affordable and efficient tools for classroom and lab situations.”
